

Quick Reference Guide – Alerts

You can set up text or email alerts so you will be notified about certain activity such as Wire Transfers waiting for approval or account balances dropping below a certain level.

To access Alerts

1. Open the left navigation menu
2. Click the + to expand your User Profile menu,
3. Click Alerts

Alerts Terminology and Screen Details

Delivery Points

- Email address and/or phone number where alerts are sent

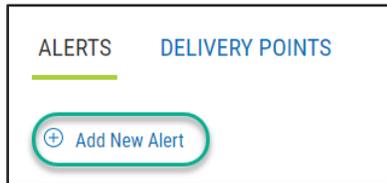

Alert Names

- Each alert is labeled with a user-assigned name

Add New Alerts

The platform can generate alerts for three types of actions: Account Activity, Account Balance and Events.

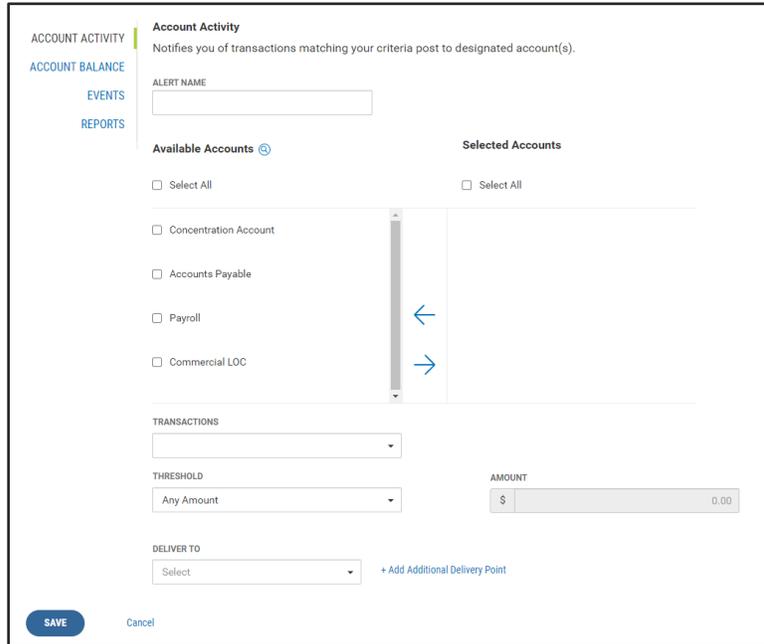

Click the Add New Alert link to create a new alert:

Each different alert type has a dedicated screen layout, because each type requires a slightly different set of data elements to properly define it. The following sections describe in detail how to set up each alert type.

Account Activity

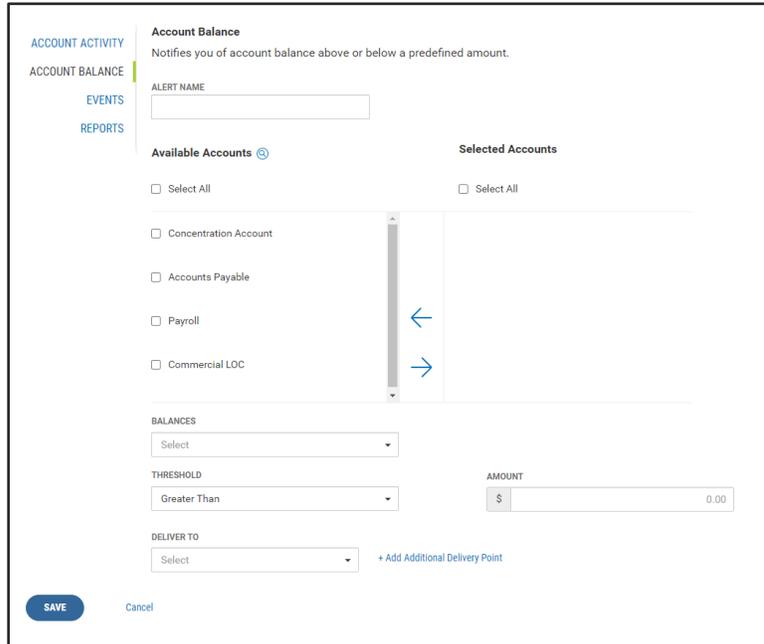

Account Activity alerts are triggered by transactions (e.g., Paid Checks, ACH Transfers) posting against your accounts. Each Account Activity alert is for one specific transaction type, and is tied to one or more accounts.

1. Enter Alert Name
2. Select the Available Accounts for this alert by selecting the checkbox on the account's list and clicking the blue arrow. If selecting all accounts click on Select All
3. Select a transaction type from the dropdown list.
4. Select a Threshold setting to narrow the conditions under which you will receive an alert.
 - If you want to receive an alert every time this transaction type posts against any of the selected accounts, select "Any Amount."
 - If you are interested only in alerts for an exact dollar amount, select "Equal To" and enter the target dollar amount in the Amount field.
 - If you are interested only in transactions above or below a certain dollar amount, select "Less Than" or "Greater Than" and enter the target dollar amount in the Amount field.
 - If you are interested in transactions within a certain range of dollar values, select "Between" and enter the lower and upper bounds in the two Amount fields.
5. Select a Delivery point from the dropdown list. If the delivery point you want is not on the dropdown, click the Add Additional Delivery Point link to define a new one.
6. Click SAVE

Account Balance

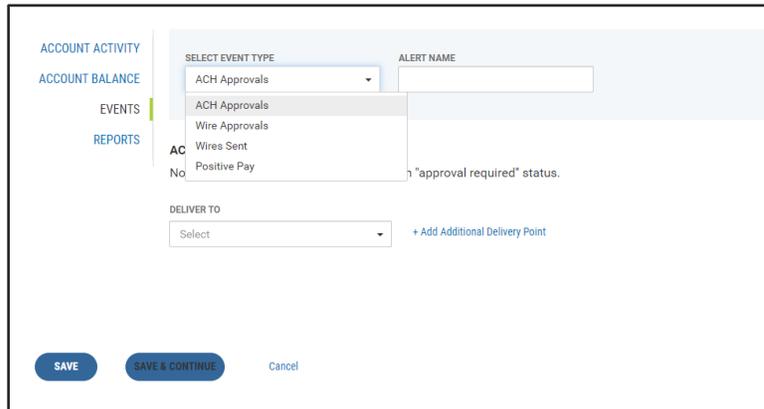

Account Balance alerts are triggered when one or more of the monitored accounts crosses the threshold value you set.

1. Enter Alert Name -Give the new alert a good descriptive name.
2. Select one or more accounts.
3. Select a Balance type from the dropdown list.
4. Select a Threshold and amount settings to define the conditions for the alert.
 - Select "Greater Than" and enter a dollar value in Amount to receive an alert every time the selected balance type rises above the Amount value in one or more of the selected accounts.
 - Select "Less Than" and enter a dollar value in Amount to receive an alert every time the selected balance type falls below the Amount value in one or more of the selected accounts.
5. Select a delivery point where the alert will be sent. Click the Add Additional Delivery Point link to add a new one.
6. Click SAVE

Events

Event alerts are triggered by actions that users perform, or by background activity that the system performs on your behalf. Most event types are account-specific.

The screenshot shows a web form for configuring an event alert. On the left is a navigation menu with 'EVENTS' selected. The main form area has a 'SELECT EVENT TYPE' dropdown menu with options: 'ACH Approvals', 'Wire Approvals', 'Wires Sent', and 'Positive Pay'. The 'ACH Approvals' option is selected. To the right of the dropdown is an 'ALERT NAME' text input field. Below the dropdown is a 'DELIVER TO' dropdown menu with 'Select' as the current choice and a '+ Add Additional Delivery Point' link. At the bottom of the form are three buttons: 'SAVE', 'SAVE & CONTINUE', and 'Cancel'.

1. Enter Alert Name
2. Select the Event Type
 - ACH Approvals**
Sends an alert when a new ACH batch requires approval. This event type is not account-specific.
 - Wire Approvals**
Sends an alert when a new wire transfer requires approval. This event type is account-specific.
 - Wires Sent**
Sends an alert when a wire transfer is approved and submitted for processing. This event type is account-specific and also can be restricted by defining a threshold amount or range.
3. Select a delivery point where the alert will be sent. Click the Add Additional Delivery Point link to add a new one.
4. Click SAVE

Account Selection Control

To add an account to the alert

Click the account's checkbox on the Available Accounts list and click the blue right arrow to move it to the Selected Accounts list.

To add multiple accounts at one time

Click checkboxes next to the accounts you want to add and click the blue right arrow to move them all to the Selected Accounts list.

To filter the Available Accounts list

Click the magnifying glass next to the Available Accounts label and type a sequence of letters into the input field to slim down the list.

For example, you might key in "Pay" to isolate accounts named "Accounts Payable," "Payroll" and "Auto-Payments."

To remove accounts from the alert

Click the checkbox next to an account on the Selected Accounts list and use the blue left arrow to move the accounts back to the Available Accounts list.

View and Manage Alerts

The Alerts list displays all your defined alerts:

As with other tabs and widgets, you can control and personalize the list view:

- Choose which columns are displayed or hidden, change the column order
- Filter the data, choose a column for the data sort order
- Save a useful combination of column and data settings for later reuse
- Print the list content or export it to a CSV file

Click the **•••** in the Action column to get a pop-up menu of available actions for any entry on the list.

- **View**
Displays the alert details as read-only text.
- **Modify**
Displays the alert details with input fields so you can change some of the info. The input fields are exactly the same as those you use when adding this type of alert.
- **Delete**
Deletes the alert.

To delete multiple alerts, click the checkbox for each targeted alert and then click the DELETE button.

Set Up Delivery Points

Delivery Points are the email addresses and cell phone numbers where alerts are sent

The screenshot shows the 'DELIVERY POINTS' form with the following elements:

- Section: **DELIVERY POINTS**
- Field: **Email** (Required) with a red asterisk.
- Field: **EMAIL ADDRESS** containing 'alertuser@email.com'.
- Field: **NICKNAME** containing 'E-mail'.
- Buttons: **save** and **Reset**.
- Large grey square: **+ Add Additional Delivery Point** with a green arrow pointing to a **Add Additional Delivery Point** button below it.

The screenshot shows the 'DELIVERY POINTS' form with the following elements:

- Section: **DELIVERY POINTS**
- Field: **Email** (Required) with a red asterisk.
- Field: **EMAIL ADDRESS** containing 'alertuser@email.com'.
- Field: **NICKNAME** containing 'E-mail'.
- Buttons: **save** and **Reset**.
- Form: **DELIVERY POINT** section with a dropdown menu (set to 'Email'), **EMAIL ADDRESS** field, and **NICKNAME** field.
- Buttons: **add** and **Cancel**.

1. Click on add additional delivery points by clicking the grey Add Additional Delivery Point square.
2. Select a Delivery Point type (email or SMS) from the dropdown list
3. Enter the contact information - Email Address / SMS Number
4. Enter a Nickname to provide a descriptive name

NOTE: To make it easy to set up alerts and minimize confusion, you should give your Delivery Points clear, distinctive names like "Work Email" or "Personal Phone."

5. Click **SAVE**
