

Remote Deposit Capture Scanner Installation Guide for Mac

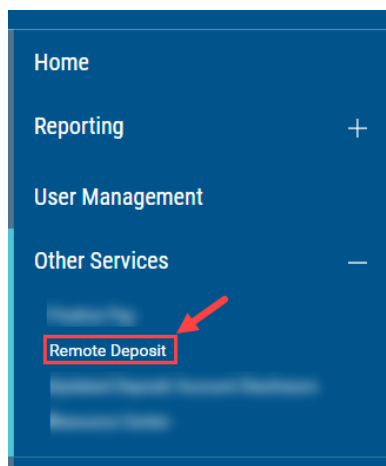

Installing Device Control

If you are accessing the application for the first time, you will need to install Device Control before you can begin making deposits. Your scanner can be connected at any point during the install.

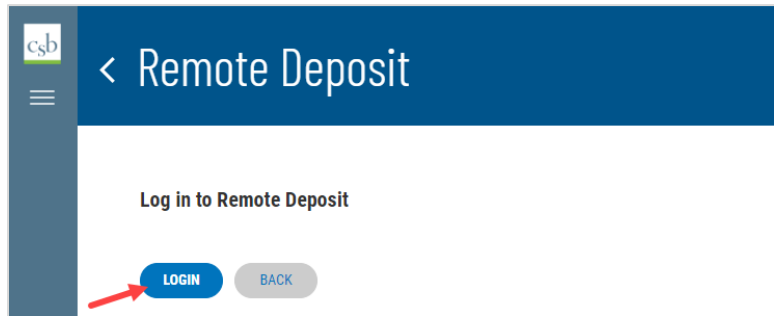

Step 1: On the Business Online Banking login page, enter your Customer ID, User ID and password, and click the SIGN IN button.

Step 2: Click on the 3-line icon on the upper left corner, just below the Cambridge Savings Bank logo to expand the side menu. From the side menu, click on **Other Services** and then select **Remote Deposit**.

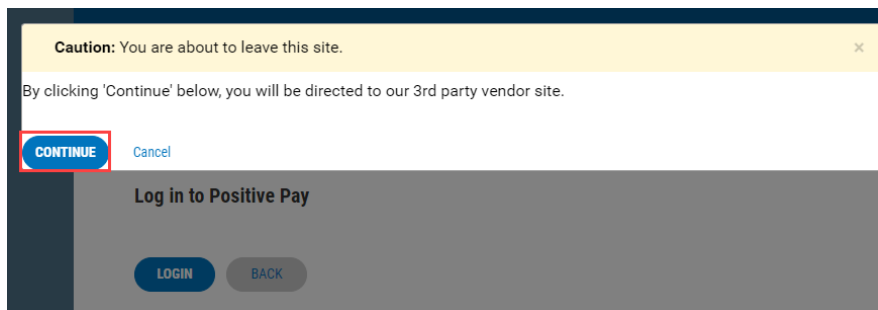

Step 3: On the **Remote Deposit** screen, click the **Login** button on the screen.

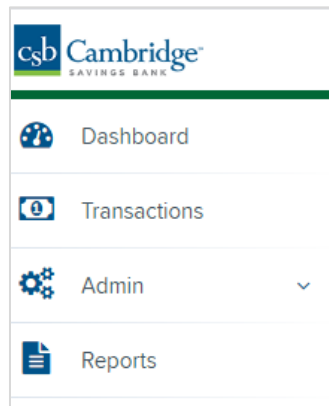

Important! After clicking the **Login** button, you will receive a pop-up message stating: “**Caution:** You are about to leave this site. By clicking, ‘Continue’ below, you will be directed to our 3rd party vendor site.”.

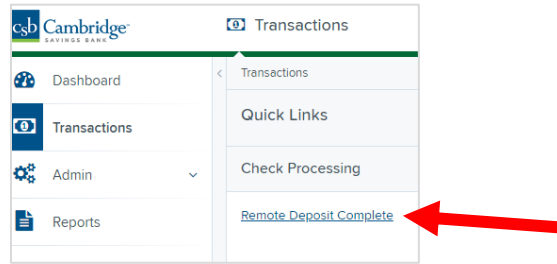

This is a valid message, and you are still in a secure session and accessing a secure site to access the services.

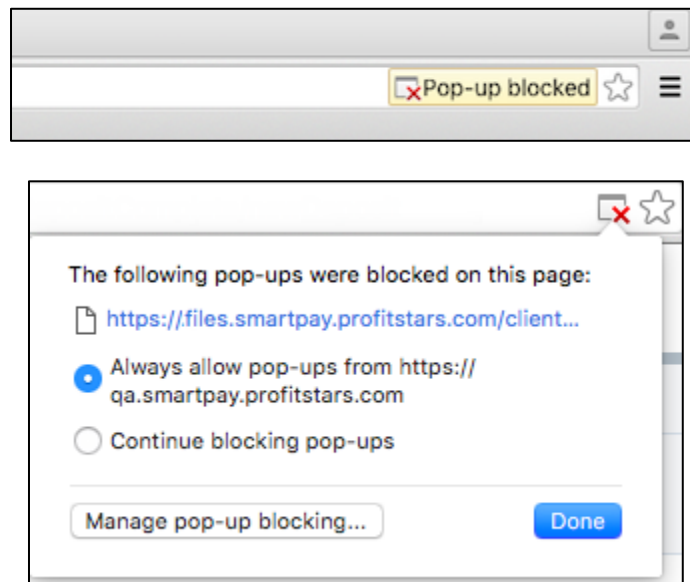

Step 4: Select **Transactions** from the left main menu.

Step 5: Under *Check Processing*, choose **Remote Deposit Complete**

NOTE: Depending on your pop-up settings you may see a **Pop-up Blocked** message. Click the red **X** and select **always allow pop-ups**.

Step 6: The message below will appear. Click **Keep**.

Step 7: Click **DeviceControllerInstaller....pkg** in the bottom left hand corner to begin the install.

Step 8: The *Intall Wizard* toll appears. Select **Continue**.

Step 9: Click **Install**, as shown below

Step 10: The message below appears, enter the admin username and password for your PC and then click *Install Software*.

Step 11: Click **Complete** on the *Complete Device Control Setup* window.

Step 12: Enter your credentials.

Uninstalling Device Control

Device Control is the feature used to manage your scanner. You may need to remove device control if you update your scanner or need to remove access from a computer. Follow the steps below to uninstall Device Control.

Step 1: Click **Finder** .

Step 2: Select **Go** on the menu bar at the top of the screen.

Step 3: Choose **Go to Folder...**.

Step 4: Type ~/Applications and then click **Go**.

Step 5: Double-click **EPS Device Control Uninstall.app** to uninstall.

NOTE: The application windows should automatically disappear once the installation has finished.
